Dispelling the myths of aluminium busbar trunking

When it comes to performance and resistance many designers consider copper to offer a higher performance than aluminium for the same rated bar. However, the differences are marginal as Lee Jones, Marketing Engineer [explains](#).

New Product Releases

The New Altivar 212
dedicated HVAC drives for 0.75 to 75 kW motors

[Learn More >>>](#)

GS2 Fuse Switch Kits - 32A to 400Amps
fuse switch kits with one part number

[Learn More >>>](#)

Magelis XBT GH:
portable 5.7" graphic touch screen with 65K colours

[Learn More >>>](#)

Canalis MCCB Tapoffs
Micrologic equipped NSX breakers covering ratings up to 250A

[Learn More >>>](#)

Thalassa GRP - lightweight enclosures that will last a lifetime!

Introducing **Thalassa GRP** family - complete range of self extinguishing monobloc enclosures manufactured from glass reinforced polyester, 25% lighter than steel.

Suitable for harsh environments: non corrosive, non conductive, resistant to extreme temperatures

[Learn more on Thalassa GRP >>>](#)

Let your applications take the strain with our new Altistart 22

Our **Altistart 22** soft start -soft stop unit supports the controlled starting and stopping, via voltage and torque, of three-phase squirrel cage asynchronous motors for power ratings between 4 and 400kW.

An embedded bypass function means fewer components, less cabling and an overall smaller footprint, while offering true three phase control.

[Learn more on Altistart 22 >>>](#)

TeSys U - Starter controllers up to 15 kW

Introducing the 1st intelligent starter capable of integrating motor control, control and changeover functions in a unit 45 mm wide!

Compact, simple and modular, it adapts to all the applications. Ideal solution when the motor starter needs to be decentralised in the machine or the process.

Command and Control Application Guide

Schneider Electric offers a wide range of command and control devices to help you save energy and save money.

Whatever the type of building or Infrastructure it is, we could offer you the right solution to optimise your energy usage, and avoid unnecessary consumption.

[View our Control and Command product offer >>>](#)

[Download our Command and Control Application Guide >>>](#)

GET and Square D become Schneider Electric

From now on, our **GET wiring accessories** and **Square D** are going to be branded Schneider Electric, so their compatibility with the rest of the range will be even clearer.

This means you can get everything you need for electrical installations from one name you can trust.

[View the new Schneider Electric offer >>>](#)

Product Promotion: LA9Z busbar mounting plates

We have launched a new range of mounting plates and accessories to simplify the installation of motor feeder components in electrical installations. Power distribution is performed by a busbar.

The mounting plates are fitted directly on to this busbar, by snap on fixings, thus implementing the electrical connection.
