

Authorised person courses

Authorised Person: APHaz (MOD)

Target audience

- Your scope: Defence estate maintenance management organisation (MMO)
- Your job: Nominated as Authorised Person for hazardous area installations

Prerequisite knowledge

- None

Duration and delivery

- A three day course (residential)
- In-class sessions within Schneider Electric training centres

Training code: 152

For further information or registration

- Contact your local Schneider Electric customer training centre

Objectives

To enable delegates nominated for appointment as authorised persons to acquire the necessary background knowledge, skills and basis for gaining company experience.

In particular:

- To revise and update the requirements and application of relevant legislation
- To learn procedures for a safe system of work on hazardous LV systems in accordance with JSP375
- To obtain practice in implementing the above

Content

- British Standards (BS) and Cenelec (European) Standards and codes of practice
- The classification of areas and the choice of equipment for use in the presence of Potentially Explosive Atmospheres (PEXA)
- Certification of equipment methods of protection, gas groups and temperature classification
- Application and use of MoD Defence Estate (DE) Safety Rules and Procedures (JSP375)
- MoD/DE maintenance requirements for installation and maintenance of equipment
- Classroom and practical assessment exercises
