

Health Estates - HTM 2021 Transition to 06/03

Suitably experienced personnel nominated for appointment as AP (electrical) with respect to HV distribution equipment.

Commencement dates: 2008

21st January

23rd June

27th October

Course Code C140

Delegates who attend the course should have a firm understanding of basic electrical principles and theory. The course has an external practical element - delegates are advised to bring outdoor protective clothing. Evening exercises will be conducted.

A wide variety of manufacturers high voltage switchgear is installed for practical work

Cost: £1354.00 per delegate

Fees include lunch, refreshments and full course documentation

FREE RE-SITS!

**Venue: Schneider Electric
Coventry, West Midlands.**

Local well appointed hotel accommodation – within fifteen minutes of the training facilities

Delegates will be introduced to electrical systems and the dangers which exist and can arise when operating and working on high voltage systems. A facility for examining equipment and gaining hands on operating experience will be available throughout the course.

Who will benefit?

All staff required to operate a live system on a Health Estate.

NHS Estates
An Executive Agency of the Department of Health

What will be covered?

The training will teach safe operating procedures relating to the operation and maintenance on a variety of manufacturers equipment. Delegates will gain the required experience to issue documentation abiding by all legislation and specific to HTM 2021 recommended procedures, in addition to attaining the role of safety co-ordinator.

- Statutory safety regulations
- Health Estates Electrical Safety Rules and Procedures (HTM2021)
- HV switchgear operation and maintenance
- HV sub-station equipment, operation and maintenance
- HV ring and radial network operation
- Application of Electrical Safety Regulations to HV distribution systems
- Issue of Permit to Work, Sanction to Test
- Operating records and documentation
- Cable location and identification
- Testing - commissioning of HV electrical distribution equipment
